

Norway

Hum me a melody
Sing me a song
Rhyme your sweet words for me
I'll dance along

But when the night time
Descends on the day
Don't leave me hanging around
Norway

Norway I'm going home
I've have enough
We've danced this waltz too long
Now we must part

I'll find an English girl
With golden hair
We'll start a family
Over there

Give me a chance
Let me go
Norway
