

Wake Up in the Morning Light

Wake up in the morning light and feel the sun
See another brand new day that's just begun
Give a little of your gift you know you can
Celebrate with everyone sing with the band

Take a little holiday go see the world
Go with someone that you love or by yourself
For the wonders of this globe are everywhere
Get out of your comfort zone let down your hair

Be the best you can
Be the one you are
Be the best you can
You'll go far

Be the best you can
Be the one you are
Be the best you can
And you'll go far

For this world is full of things that make you smile
All you've got to do is bring out your inner child
You don't have to compromise on love so don't
Every time you help someone you reap what you sow
